

# HYDRAULIC BOX & PAN FOLDERS (HBPF)

- Hydraulically Powered
- Various Sizes Available
- Hydraulic-Operated Clamping Beam & Folding Beam
- Side Fences With Optoelectrical Guards
- Simple Push/Pull Backstop With A 500mm Stroke
- Beam Operation Via Selector Switch/Foot Pedal
- Manually Adjustable Angle Stop
- Segmented Top Tooling
- 12 Month Manufacturer's Warranty

Models available:

- 3200mm Folding Length x 5.0mm Capacity (HBPF3200/5)
- 3200mm Folding Length x 3.0mm Capacity (HBPF3200/3)
- 2500mm Folding Length x 5.0mm Capacity (HBPF2500/5)
- 2500mm Folding Length x 3.0mm Capacity (HBPF2500/3)
- 2000mm Folding Length x 4.0mm Capacity (HBPF2000/4)
- 1320mm Folding Length x 4.0mm Capacity (HBPF1320/4)

HYDRAULIC BOX AND PAN FOLDERS (HBPF) offer exceptional accuracy and reliability. Designed for versatility, they deliver powerful sheet metal folding solutions with multiple size options to suit your needs. A simple push/pull backstop with a 500 mm stroke ensures smooth material positioning, optimizing workflow and productivity. Hydraulic-operated clamping and folding beams provide consistent and accurate bends, ensuring flawless results across all projects. Operate with ease using a selector switch or foot pedal control, giving operators maximum flexibility and precision during use. An adjustable manual angle stop allows for a wide range of folding configurations, enhancing flexibility for custom projects. Each machine comes equipped with segmented top tooling, making it suitable for handling multiple bending and forming tasks with ease. Designed with operator safety in mind, these machines feature optoelectrical side guard fences, creating a secure working environment.

Please note Hydraulic Oil not included.
