WNS Beading Machines
 2500mm x 1.0mm Capacity (BM2500)
 2000mm x 1.0mm Capacity (BM2000)
 1550mm x 1.0mm Capacity (BM1550)
 1275mm x 1.0mm Capacity (BM1275)

WNS BEADING MACHINES are ideal for duct manufacturers. These machines have one pair of driving rolls and one pair of beading rolls. The sheet is placed on the entry table alongside the guide fences and then passed through the machine, producing stiffening beads. This enables a stronger duct to be formed and in some cases thinner material to be used.

SPECIFICATIONS

Model:	Maximum Length:	Maximum Thickness:	Pitch of Beads:	Width of Beads:	Supply Voltage:	Motor Power:	Length:	Width:	Height:	Weights - net/gross:
BM2500	2500mm	1.0mm	300mm	10mm	415v, 3 Phase	3HP, 2.2kW	2840mm	700mm	1120mm	420Kg/ 570Kg
BM2000	2000mm	1.0mm	250mm	10mm	415v, 3 Phase	3HP, 2.2kW	2340mm	700mm	1120mm	750Kg/ 850Kg
BM1550	1550mm	1.0mm	215mm	10mm	415v, 3 Phase	2HP, 1.5kW	1975mm	700mm	1120mm	800Kg/ 850Kg
BM1250	1250mm	1.0mm	215mm	10mm	415v, 3 Phase	2HP, 1.5kW	1650mm	700mm	1120mm	280Kg/ 380Kg
