

PNEUMATIC SEAM CLOSER (PSC1320I)

- Pneumatic
- 1320mm Working Length
- 1.2mm Capacity Mild Steel
- 100mm Minimum Tube Diameter
- 1250mm Maximum Tube Diameter
- 8 Bar Working Pressure
- 415v
- Fast Closing of Seams
- Professional Finish
- Pneumatically Operated Top Roll
- Adjustable Operating Pressure

PNEUMATIC SEAM CLOSER (PSC1320) is designed to close a double seam join with a professional uniform finish. The motorised top roll is pneumatically lowered onto the material and raised at the completion of the closed seam. The seam closer has an adjustable operating pressure, pneumatically operated top roll and fast closing of seams.
