

BATTERY POWERED SWAGING MACHINE (BS18V-320)

- Battery Powered
- Available Brands – DeWalt, Makita & Milwaukee
- 1.5mm Maximum Capacity Aluminium
- 1.0mm Maximum Capacity Mild Steel/Galvanised Steel
- 0.8mm Maximum Capacity Stainless Steel
- 50mm Adjustable Backstop
- 320° Swaging Head Rotation
- Variable Speed From 0-44 m/min (2 Gears)
- 18V4A Lithium Battery
- c/w 2 x Sets of Swaging (Wiring) Wheels
- c/w Case
- c/w 2x Batteries
- c/w Charger
- c/w Key
- Additional Rolls Available
- Optional Stand Available

These portable hand-held BATTERY SWAGER/BEADING MACHINES (BS18V-320) are highly efficient, and a convenient tool designed for ease of use in various work environments. Battery-operated and lightweight, they are easy to transport or carry around the workplace, making them an ideal choice for on-the-go tasks. This upgraded model now has the option of setting the backstop up to 50mm with the rods upgraded to 8.0mm. The gearbox and gear wheels have been improved to ensure even better durability. This machine has the advantage of the swaging part of the machine is able to be rotated 320 degrees relative to the machine, making it much more flexible and useful for tasks where space is limited.

This machine provides strong and consistent swaging results with minimal manual effort and comes complete with 2 x sets of swaging (wiring) wheels, key, 2 x batteries, charger and case. Optional stand & additional rolls also available.
